This great opportunity has recently had photovoltaic solar panels installed, which can be monitored & controlled via an app. Water filter has been added in both kitchens, as well as a special lime/calc filter which furifies all water coming in to the property.

Furthermore, you find an vary large garage with already installed electric car charger (also runs on the new solar panel system) & loads of storage space, and with an electric garage door.

This unique gem also comes with lots of garden space, a private salt water pool incl a brand new outdoor shower (with both hot & cold water). And last, but not least, the current owners have made a special garden area for their four-legged family member.
