Designed for those who value the highest standards of quality, comfort, and contemporary living, this home is a masterpiece of modern architecture and engineering. With a total built area of 800 m², the villa offers 4 spacious bedrooms and 7 bathrooms. Every detail has been meticulously planned and executed using premium materials: triple-glazed windows, thick insulated walls, double thermal insulation on the roof, and sound-insulated plumbing throughout. An elevator connects all floors, and the property includes a generous garage with space for up to 5 vehicles. A separate staff room with its own private entrance provides additional convenience. For wellness and relaxation, the home features a private gym, yoga studio, and a large swimming pool. The rooftop boasts a spectacular lounge area with a Jacuzzi and panoramic sea views — the perfect space to unwind or entertain. This villa is not just a home — it's a statement of refined living, where every element reflects thoughtful design and uncompromising quality. An Exclusive Investment Opportunity! In addition to this villa, there is a unique opportunity to acquire a collection of three villas as part of the same development. One of the villas has already been completed and is move-in ready. The villa featured here is currently under construction with a scheduled completion date of September 2025. The third villa, not yet under construction, already has a valid building license and an approved design project — offering buyers the rare chance to customize the layout and finishes to their personal preferences. For buyers interested in acquiring all three villas, a special package price and discount may be available. Contact us today for more information or to arrange a private viewing.
